

José Castillo Lema

Software Engineer Madrid, Spain | josecastillolema@gmail.com | [LinkedIn](#) | [Blog](#) | [GitHub](#)

EXPERIENCE (RED HAT ONLY)

Principal Software Engineer *Ecosystem Engineering - NVIDIA technical partnership* / Jun 2026 - Present

- Leads **CI and performance/scale efforts** across NVIDIA partnership projects including **DPF**, **GPU Operator** and **Network Operator**.
- Defines and maintains the **end-to-end testing framework** used across the ecosystem, ensuring consistent validation and release quality.
- Drives cross-project integration testing and performance benchmarking to identify regressions early in the development cycle.

Principal Software Engineer *OCF Perf&Scale* / Sept 2024 - May 2026 / 1 yr 8 mos

- Leads the **Continuous Performance Testing (CPT) domain**, responsible for over 100 hundred weekly tests across 5 different platforms.
- Enabled developers to gain performance insights in the dev stage by **shifting left** performance testing within the downstream Kubernetes CI system **Prow**.
- Integration with **performance regression frameworks** to drastically improve the test coverage matrix and test frequency.
- Collaborates with different teams (Virtualization, Networking, Telco, OSP, etc.) driving projects to successfully scale the OCP ecosystem.

Senior Software Engineer *Telco 5G Perf&Scale* / Jul 2021 - Aug 2024 / 3 yrs

- Bootstrapped and maintained the telco core emulated workloads used to generate the vast majority of telco reports (+9), identify and report BZs (+30) and work through related customer cases (+5).
- Advanced the maturity of telco-5g-perf-scale tools and workloads and its integration with the existing labs automations and workflows.
- Strengthening synergies with the wider Telco QE ecosystem, avoiding duplicate efforts.

Architect *STP* / Apr 2021 - May 2021 / 2 mos

- Led NFV-related projects and teams at several customers.
- Supported solution architects and the wider delivery practice.

Consultant *STP* / Jul 2019 - Mar 2021 / 1 yr 6 mos

RECOGNITION & DEVELOPMENT

- IBM tech award / 2025
- Portfolio & Delivery Campaign Award / 2025
- Red Hat Impact Excellence Program Contributor / 2023
- Red Hat Impact Program Contributor / 2022
- Aspiring Manager Program / 2021

EDUCATION

BE, Computer Engineering *Universidade da Coruña* / 2007 - 2012

PhD, Electrical Engineering *Universidade de São Paulo* / 2014 - 2019

PUBLICATIONS (LAST 2)

- ♦ Evaluating Kubernetes Performance for GenAI Inference: From Automatic Speech Recognition to LLM Summarization / *ICPE '26* / Best Industry Paper Award
 - ♦ Bridging Clusters: A Comparative Look at Multi-Cluster Networking Performance in Kubernetes / *ICPE '25*
-

CONFERENCES (LAST 3)

- ♦ API Remoting for llama.cpp: Near-Native GPU Speed in macOS Containers / *FOSDEM '26*
 - ♦ A Performance Comparison of Kubernetes Multi-Cluster Networking / *FOSDEM '26*
 - ♦ AI-Powered Performance Insights / *OVSConf '25*
-

CERTIFICATES (LAST 5)

- ♦ NVIDIA Certified Associate | AI Infrastructure and Operations / *NCA-AIIO*
 - ♦ Red Hat Certified Architect in Infrastructure / *RHCA*
 - ♦ Certified Kubernetes Administrator / *CKA*
 - ♦ Huawei Certified ICT Associate - Artificial Intelligence / *HCIA-IA*
 - ♦ AWS Certified Developer - Associate / *DVA-C01*
-

PATENTS

- ♦ Dynamic protocol switching for inter-cluster networking via Virtual Routers in a multi-cluster computing environment
 - ♦ Management orchestrator for a Content-Centric Network in a 6G network
-

VOLUNTEERING

- ♦ CNCF Merge Forward / *2026-Present*
- ♦ Code the Dream - Skill-IT Presenter / *2024-Present*
- ♦ ONF - Ambassador / *2020-2024*
- ♦ AWS - Community Builder / *2021-2023*
- ♦ Telecom Infra Project Test & Integration Project Group / *2021-2022*
